## National Park Week

*Join the Fun!*

Between April 16 and 24 the national seashore joins over 400 other national park areas across the country celebrating the 100th birthday of the National Park Service. Join us for beach walks and a shark talk, a hands-on look at park vehicles and tools, historic building tours, and exhibits of student art. Many of our programs are geared towards families, as National Park Week occurs during spring vacation for Massachusetts schools. All activities are free and open to the public.

## FIND YOUR PARK

### National Park Service: 1916-2016, and Beyond!

This year parks across the country are connecting with and creating the next generation of park visitors, supporters, and advocates. The national seashore and our partners will host many events this year to celebrate what's special about this park, and how the national seashore is connected to the larger story of preservation and enjoyment embodied by the 400+ national park areas across the country. Beginning in late spring, look for concerts; an art festival and exhibitions; a science symposium; Instameets for Instagrammers; wireless radio events; Healthy Parks, Healthy People activities; lighthouse commemorations; and more. We'll even introduce a piece of music that was composed for the national seashore in honor of the Centennial! Plus, several signature projects are underway, including extensive exterior repairs and painting at the Captain Penniman House in Eastham, and rehabilitation of the historic outdoor amphitheater at Salt Pond Visitor Center beginning in the fall. Our big message to everyone this year is, "Get up. Get out there. Find Your Park!"
